LYTTON'S FUNERAL

Largely Attended by Prominent Officials.

A DEFRAUDING CUSTOMS BROKER.

The Abductors of Beals' Son Landed in Jail.

Excitement in Arkansas Over Tuesday's Lynching.

Obsequies of a Distinguished Statesman.

By Cable and Associated Press.]

PARIS, Nov. 28.—The obsequies of the Right Hon. Edward Bulwer Lytton, the Earl of Lytton and British Ambassador at Paris, who died suddenly in this city on Tuesday last, were held to-day in the English Church. The ceremonies, which were very impressive, were attended by an immense number of people. Among those present beside the family of the dead statesman and author, were many of his personal friends, men who have won high positions in the literary world, all the members of the Diplomatic Corps at present in Paris and a large number of the members of the French Senate.

The church was crowded and hundreds of persons were unable to gain admission. The celebrated French painter, Bonnat, had just finished a portrait of the Earl and this picture was placed on an easel which stood at the head of the casket as it laid in the church.

After the services at the church the body was conveyed to the railway station en route to England, where it will be intered. The route taken by the cortege from the church to the railway station was lined by 3,500 troops who had been detailed for duty by the French government.

Five thousand persons have called at the British Embassy and inscribed their names there as a mark of respect to the dead Ambassador.

Reid, the American Minister to France, sent a beautiful wreath, which was placed upon the bier. Reid was present at the funeral services. All Ministers of State were also present. President Carnot was represented by General Brugere. Prominent among the mourning assemblage were Princess Matilda and Prince Monaco. The service was fully choral, and the scene was a most impressive one.

Kidnapper Arrested.

By Associated Press.]

KANSAS CITY, Nov. 28.—The mysterious King, alias Dennis, alias Spinole, who it is said returned the kidnapped Beal's child, was arrested this morning. He is the chief conspirator in the abduction, and undoubtedly the man who delivered the child and obtained the $5,000 ransom last night at the police station. King was searched but no money was found upon him. King had little to say; he denied knowing anything at all about the abduction, saying the woman could tell everything.

Albert King and his wife, Lizzie King, alias Lizzie Smith, were brought before the justice this morning and charged with the abduction of the son of David T. Beals. The prisoners pled "not guilty" to the charge. They could not give bonds and were committed to jail.

The President Busy.

By Associated Press.]

WASHINGTON, Nov. 28.—The President is unusually busy to-day. He spent the entire forenoon on his message to Congress, and the time between 12 and 1:30 o'clock was devoted to the reception of officials and other visitors, and at 1:30 o'clock a public reception was held, during which the President shook hands with over 500 persons, including a delegation of Indians.

Excitement in Arkansas.

By Associated Press.]

GUERDON (Ark.), Nov. 28.—The excitement here is intense, as a momentary attack by the negroes is looked for. They say the whites have been exercising their superiority too long and they will reverse this condition of affairs. The citizens all go armed, it is said, preparatory to resist any attack that may be made by the blacks. The negroes are aroused over Tuesday's lynching.

Special to the GAZETTE.]

FRESNO, Nov. 28.—The elegant residence and contents of W. N. Oothout, six miles east of Fresno, was burned this morning. Loss, $25,000; insurance, $11,000. A faulty flue is supposed to be the cause.

Ocean Mail Contracts.

Special to GAZETTE.]

SAN FRANCISCO, Nov. 28.—It is stated to-day that the changes made in the ocean mail contracts by the Postmaster-General will necessitate the formation by the Pacific Mail Steamship Company of a new schedule for its Panama line of steamers. The time now occupied in the trip is twenty-one days, which, under the contract awarded to the Pacific Mail, must be reduced to sixteen days. To do this the company will need more steamers, and it is stated to be their intention of running two lines instead of one. In the fast line will be the steamers San Juan, San Blas, San Jose, City of Sydney, City of New York, and if necessary, the Colima and Acapulco, which are in the same class.

The line steamers at present running between Panama and Acapulco are to be extended to San Francisco and used as a slower line. The Pacific Mail Company is having a steamer built at the Union Iron Works which will probably be put into the Panama service. It is expected no radical change will be made in the first two years under the new contracts, as the companies will be required to increase the number of their vessels.

They Should Get Out of the Cold and Come to Nevada.

By Associated Press.]

ST. PAUL, Nov. 28.—Dispatches from fifty Minnesota points indicate that the temperature varies from zero at Duluth to ten degrees below at Hallock and eighteen below at Moorhead.

Great snow storms in northern Minnesota and North Dakota last week forced the threshers to wholly suspend operations.

The ferries at Duluth and Superior are frozen up and it is believed that lake navigation cannot last much longer. A special from Winnipeg states the mercury was twenty degrees below zero at that place at midnight, and it was growing colder.

Mexican News.

By Associated Press.]

LAREDO (Tex.), Nov. 28.—Captain Harfies, of the troop of the Third cavalry, has returned from a two weeks scout down the Rio Grande in quest of the Mexican revolutionist, Garza. He reports it impossible to secure any definite information of Garza's whereabouts. The Mexican troops are pouring in over the Mexican railroad from the interior of Mexico, and are being hurried down the river to take the places on the frontier of the soldiers whom the Mexican Government evidently begin to distrust.

THE NOTE SIGNERS' MEETING.

What Was Done To-Day by Them in the Matter of the Reservoir Site Purchase.

At the adjourned meeting of the 58 signers of the note for the reservoir site purchase on the Little Truckee held this afternoon, Mr. Gould reported that he had been on the ground with the surveyors, and traced out the lines and made a map of the purchase, which he presented. Judge Webster said the title was all right. On motion the signers were assessed 50 cents each to pay the *Nevada State Journal* for the meeting call, $5, and to pay W. H. Gould's expenses to the Lake. The following gentlemen paid as follows: W. O. H. Martin $1, R. L. Fulton $1, William Thompson $1, D. W. Bryant $1, M. Nathan 50 cents, Sol Levy 50 cents, J. Stiner 50 cents and Wm. Webster $1. The *Journal* bill was paid, but Mr. Gould will have to look to the balance of the signers for his money. A discussion was had as to what should be done with the property and some favored incorporating, while others said they preferred to take the deed for their part of it and let the matter stand as it was. The meeting finally adjourned without date, or without taking further action.

A Good Appointment.

Governor Colcord has appointed C. D. Van Duzer Land Agent at Washington, vice Isaac Frohman, resigned. The salary is $1,000 per annum and will afford Mr. Van Duzer a fine opportunity to pursue the study of law. The GAZETTE thinks the appointment will give very general satisfaction, and congratulates Mr. Van Duzer on his appointment.

WAR IN CHINA.

Rebels Marching on City of Pekin.

NO HOME RULE FOR IRELAND.

Admiral Brown's Report to the Navy Department.

Starving Peasants Petition the Czar for Relief.

War in China.

By Cable and Associated Press.]

LONDON, Nov. 28.—The *Times* this morning published a dispatch from a correspondent at Shanghai which confirms the reports that the trouble in China is not alone based on the anti-foreign feeling entertained by the natives. This is but one phase of the situation underlying the reason for the discontent which pervades many districts in China. In fact the natives of the country believe the time is ripe to overthrow the Manchu dynasty, and to establish again the native dynasty which was overthrown in 1644. The movement has in view the driving of the present Emperor from power and placing a native Chinese ruler upon the throne.

The *Times* correspondent says the rebels have already captured Chaycang, in the province of Leaotong, and Shing King, in Manchooria. They are rapidly gaining accessions to their ranks and have quite a formidable army. They are marching on to the capital at Pekin. The Imperial forces are preparing to meet them, and a desperate battle will soon be fought. The intelligence that the rebels are marching to attack Pekin causes the greatest excitement in that city.

No Home Rule For Ireland.

By Cable and Associated Press.]

GLASGOW, Nov. 28.—Balfour, First Lord of the Treasury, who visited this city for the purpose of being installed Rector of the University, being the principal speaker at a Conservative meeting held here, declared positively that Ireland would never attain her desire to have Parliament sit in Dublin. In the course of his remarks Balfour said: "Whatever is the success of Government policy in Ireland, it, at any rate, has been a sincere policy. The first duty of the Government was to see the laws obeyed, and by a wise administration and expenditure of money to endeavor to increase the happiness of the people in every part of Her Majesty's dominions." In conclusion Balfour declared that no matter what the future might bring forth, it would never bring Home Rule for Ireland.

Baseball for Charity.

Special to the GAZETTE.]

SAN FRANCISCO, Nov. 28.—The ball teams of the Bohemian and Pacific Union clubs had fine weather this afternoon for the charity game for the benefit of the Children's Hospital. The grand stand was well filled with spectators and presented a gay appearance, almost every lady present displaying either red of the Bohemians or blue of the Pacific Unions Among the spectators could be counted some of the prominent business men of the city.

The Bohemians were first to bat. The battery of the Unions was Basque and "Pop" Swett. Basque was rather unsteady at the start and began by sending men to bases on balls. After the bases became filled by Stallings hitting to short, Basque gave the next batter first base on balls, and the Bohemians scored their first run. Then Swett threw down to first to catch the runner napping, and the runner at third stole home. When the third had been struck out four runs were credited to the Bohemians.

Eyre went to first base on balls, stole second and advanced to third when Bourn sacrificed. Swett hit out a single and Eyre scored. Swett stole second and scored on Ralston's single. This ended the run getting of the Unions first inning.

The Bohemians made five runs in their half of the next inning.

Admiral Brown's Report

By Associated Press.]

WASHINGTON, Nov. 28.—Admiral Brown's report upon the circumstances attending the landing of the Chilian troops at Quinteros last summer has reached the Navy Department. THE Chronicle says: A few days ago a French paper stated that the Bank of France was ready to supply Russia with silver to the amount of 150,000,000 roubles to assist the latter country to resume specie payments. The journal publishing the information is not altogether trustworthy, so the statement did not attract much attention. But now comes the London Times with a statement in its financial column, which is said to be authentic, to the effect that the Russian Government is likely to make large purchases of silver with the object of establishing a silver standard. This intelligence, if true, is in the highest degree important. If Russia could successfully resume specie payment on a silver basis an immenae demand would be created for the white metal which would at once expose the weakness of the gold monometallic argument that the demonetization of silver was rendered necessary by its growing abundance. A demand for $100,000,000 worth of silver by Russia would have the effect of sending silver up to more than $1 29 an ounce and would instantly expose the falsity of the assertion that Germany has a large stock of silver ready to dump on other countries. Instead of getting rid of silver, should Russia make the move outlined above, Germany would be grabbing for more of the white metal.

IT is now learned that the origin of the trouble in which the sailors of the Baltimore lost their lives was a trivial quarrel between two American and ten Chilean sailors. One of the latter in the course of the dispute spat in the face of one of the Americans, who resented it by striking the Chilean. The dispatch which furnished this information does not so state, but it is to be presumed that the ten Chileans took up the matter and hard pressed the two Americans, who in turn were assisted by other sailors of the Baltimore who happened to be ashore on liberty. Unquestionably such a quarrel would not have culminated in a riot in which Chileans, police and all seemed to take a hand unless there had been latent hatred of Americans. At any rate, enough is known to warrant the United States tenaciously adhering to its demand for an apology and reparation. If our country fails in this respect imitators of Chili will be bound to spring up, for, disagreeable as the fact may be, it is certain that our constantly increasing prosperity is exciting jealousy and hatred which will be sure to take the form of injury and insult if we do not insist upon being respected.

MR. LEEDS, the Traffic Manager for the California Association, tells the Bulletin that he thinks there are several transcontinental roads that may extend to San Francisco. He would not be surprised to learn that some one of these lines had decided to begin the work of extension coastward in the near future. He also says that he thinks that the conditions seem as favorable here for accomplishing much good through the agency of the California Traffic Association as they were for the trade organization at St: Louis to do good there. The St. Louis people say that they are satisfied with their advance. He would be much surprised if the Traffic Association here did not accomplish more.

IN closing his Ohio campaign at Bellaire, Governor Campbell finished his address with this expression, "Elect me Governor this fall over Major McKinley, and you will strike a death blow to protection." The response of the people was 21,000 majority for McKinley, the largest given in the State to any Republican candidate for Governor in 21 years. They would not strike the blow. Exit Campbell.

There has been more wheat shipped from Honey Lake valley this season than ever before, and large quantities of flour have also found a market outside.

AN AMERICAN TRAVELER

One Who Never Paid Anything for Transportation.

He Had Eaten at the Expense of Many of the Leading Hotels Throughout the Country—His Trick on a Railway Official.

He is a great traveler, says the Nashville American.

There is a man in Nashville who has traveled the length and breadth of the United States, from Maine to Mexico, from New York to San Francisco, and did not pay a dime for his passage, and he rode half the way in a first-class passenger coach, the other half in box cars as "blind baggage."

At present this distinguished traveler is registered at the work house.

Everybody in Nashville knows him, especially the policemen. A reporter called on the traveler recently and found him in a mood to recite various reminiscences, some of them of thrilling interest.

"I reckon," said he, "I am about as well known in the big cities of the country as the president, and when the authorities of the place hear I am coming on a visit they receive me with open arms, although they don't have a brass band to play martial music and have me ride in a carriage. The mayor doesn't make a speech of welcome, but the address of the police judge is impressive when he scowls at me and jerks out: 'Thirty days on the rock pile.'

"There's a secret in getting about the country on your face, and even when it's known some fellows haven't sense enough to work the racket. Every time I leave Nashville I rig up in a new suit, and get a pass to some town about forty or fifty miles away. I never fall in with a crowd of bums, for it's always best to travel by yourself.

"When I start from one town to another I generally strike the cannon-ball trains and find out what kind of a crew they carry. If it's a good set of men I ride between the mail-car and tender. If the trainmen are 'tough' on a fellow I crawl up under the trucks and hang on, or sometimes I get on top of a passenger coach and lie down by the lights. Riding the trucks is dangerous, and if a fellow don't know how it's done he's a goner. You have to cramp yourself up in a peculiar position, hold your feet up and never move during the ride. Sometimes I ride the brake-rods. That's the easiest and safest way to travel when you're out on the beat. I get a plank with a nail in each end, so it won't slip, put it under the rod and straddle it. When I get in the passenger coach I put up a pitiful tale about being an unfortunate railroad man and having lost my papers, and I generally get my ride.

"I made fifty dollars once, and it was the easiest money that ever came into my hands. Maj. Clarfee was the passenger agent of the Atchison, Topeka & Santa Fe road, and I went to him in Fort Worth, told him I was an unfortunate and I wanted to get out of town. He gave me a pass to some point about thirty miles up the road and I left that night. When I went into the coach who should I see but Maj. Clarfee. He motioned for me to have a seat by him, and commenced asking about me and how I managed to get about. 'Why, major,' I said, 'I have traveled over your road a thousand times and never paid a cent or had a pass, nor beat my way.' At this the old man prodded up his ears, for he thought he would catch some one of his conductors at some underhand trick.

"'How do you do it?' the major asked me.

"'That's a secret,' said I.

"'I'll give you twenty dollars to put me on to it.'

"'Make it fifty,' said I.

"'Done,' and he passed over the money.

"'Well, major, I walk.'

"He saw I had him and he didn't kick, but he cocked his eye and looked at me a long time. When I get hungry I go to the biggest hotel in the city, give the clerk a pitiful song and dance and I get a square meal. Sometimes they take me up in the dining-room, and sometimes they give me a hand-out. I have eaten at the Palmer house in Chicago, at the Ponce de Leon in St. Augustine, at the Fifth Avenue in New York, and, in fact, the finest hotels in the country on that scheme.

"The life is a checkered one, but I like it, and I guess I will always be a bum."

USES OF THE BAMBOO.

It Serves More Purposes Than Any Other Plant That Is Cultivated.

It is hoped by the department of agriculture that the bamboo may yet be cultivated in this country as it is in China, where it supplies a large part of the wants of the people, being applied to more than five hundred different purposes. In the flowery kingdom it takes the place of both iron and steel, says the Pittsburgh Dispatch. The farmer builds his house and fences out of it, his farming utensils as well as his household furniture are manufactured from it, while the tender shoots furnish him with a most delicious vegetable for his table.

The roots are carved into fantastic images, shaped into divining blocks to guess the will of the gods, or cut into lantern handles and canes. The tapering culms are used for the props of houses, the framework of awnings, the ribs of sails and shafts of rakes; for fences and every sort of frames, coops and cages; and the handles and ribs of umbrellas and fans. The leaves are sewed into rain coats and thatches. The shavings and curled threads furnish material for stuffing pillows, while parts supply the bed for sleeping, the chopsticks for eating, the pipe for smoking, the broom for sweeping, the mattress to lie upon, the chair to sit upon, the table to eat on, the food to eat and the fuel to cook it with, etc., etc. In fact, its uses are almost without number.

Heavy Cattle.

The owner of two of the heaviest cattle ever seen in Kansas—two steers weighing together 8,040 pounds—has refused an offer of 50 cents per pound for them, and proposes to take them to the world's fair. The larger one, weighing 4,040 pounds, is exactly twelve feet long, and both stand about six feet high.

Positive Statements.

CON STIPATION

Afflicts half the American people yet there is only one preparation of Sarsaparilla that acts on the bowels and reaches this important trouble, and that is Joy's Vegetable Sarsaparilla. It relieves it in 24 hours, and an occasional dose prevents return. We refer by permission to C. E. Elkington, 125 Locust Avenue, San Francisco; J. H. Brown, Petaluma; H. S. Winn, Geary Court, San Francisco, and hundreds of others who have used it in constipation. One letter is a sample of hundreds. Elkington, writes: "I have been for years subject to bilious headaches and constipation. Have been so bad for a year back have had to take a physic every other night or else I would have a headache. After taking one bottle of J. V. S., I am in splendid shape. It has done wonderful things for me."

Skin Diseases.

What spectacle is more disgusting than that of a man or woman with a skin disease which shows itself in pimples and blotches on hands, arms, face and neck? It is simply impure blood. See what Brandreth's Pills did for a chronic case: George Chapman, Pinconing, Mich., says: "For four years I was in the Mounted Infantry in the U. S. Army, residing during that time principally in Texas. Almost all that time I had a chronic skin disease, characterized by an eruption over the entire surface of my legs, thighs, arms and chest The doctors termed it eczema. I had given up all hope of ever being cured, when Brandreth's Pills were recommended to me. I concluded to tay them, and have thanked God daily since then that I did so I used them far about three months, and by that time was completely cured and have never had any trouble since."

Peace on Earth

Is not the boon vouchsafed to the chronic, nervous invalid. Slight noises startle him, odd and unexpected sensations perplex him. He neither sleeps soundly nor eats heartily, he is almost invariably troubled with dyspepsia. What should he do? Begin and pursue systematically a course of Hostetter's Stomach Bitters. With digestion forfeited and food assimilated, strength returns, the nerves grow tranquil and the zest of life returns. A blessed consummation indeed, and not only effectually, but pleasantly wrought by the Bitters. Billiousness, malaria, rheumatism, kidddy complaint are also prevented and cured by this sovereign regulating medicine. Try it at once if your nerves are out of order, and if their weakness is perpetuated by the existence of disease. A superb appetizer and prompter of sound repose.

Pronounced Hopeless, Yet Saved

From a letter written by Mrs. Ada E. Hurd of Groton, S. D., we quote: "Was taken with a bad cold, which settled on my Lungs, cough set in and finally terminated in Consumption. Four doctors gave me up saying I could live but a short time. I gave myself up to my Saviour, determined if I could not stay with my friends on earth, I would meet my absent ones above. My Husband was advised to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles; it has cured me and I thank God I am now a well and healthy woman." Trial bottles free at W. Pinniger's drugstore, regular size 50 c. and $1.

This most excellent medicine is for sale by J. B. McCullough, Druggist.

TEMPERANCE WORK.

The W. C. T. U. at Faneuil Hall, Boston—A Letter From Miss Quaiffe.

A lady member of the Reno W. C. T. U. sends in the following letter from Miss Quaiffe with a request that it be published, together with an account of the convention recently held in Boston. As the GAZETTE is always glad to hear from Miss Quaiffe it takes it for granted that there are many more in the same fix, and gladly gives it space:

BOSTON, Nov. 12, 1891.

DEAR MEMBERS OF THE W. C. T. U. OF RENO:—I wished to let you know without delay of my safe arrival in Boston. I came on from Albany last night and came to the Young Woman's Christian Association House as a pleasant place to stop until I should be assigned my stopping place by the Committee on Credentials. I am to be the guest of Mrs. J. Gardner on James Avenue. I heard a half-hours address from Lady Henry Somerset at Tremont Temple to-day. She was introduced as the Frances Willard of England. She is a most easy and simple speaker, and very earnest. She held that immense audience perfectly quiet, and was entirely at ease herself. She spoke of America as the land of compliments. She said nothing gave her more pleasure than to be compared to Miss Willard. The ladies of the W. C. T. U. pay $100 a day for the use of Tremont Temple, I am told. The number of white ribbons on the street and everywhere is most inspiring. I wish all the dear officers and members of the W. C. T. U. of Reno could be here with me.

Yours for God, home and every land,
EVA QUAIFFE.

Miss Quaiffe ended with the following account of the convention:

Miss Frances Willard called the convention to order, and Lady Somerset conducted the devotional exercises by leading the audience in singing "Rock of Ages" and asking the divine blessing upon the proceedings. Upon the platform were seated most of the members of the convention representing the W. C. T. U. organizations of the United States, Canada, England, France, Italy, China, India, Burmah, Australia, Japan, Natal, South Africa, the Hawaiian Islands, and the officers who subsequently presented reports.

Lady Somerset said:

"During the siege of Lucknow a lit-Scotch girl looked up at her mistress and said: 'Dinna ye hear the pipes?' telling that deliverance was at hand; and as I stand here to-day it seems to me that I hear the pipes which sound the deliverance of all nations from the curse of the opium and liquor traffic. As I stand here in this grand old place where American independence was born I am reminded of the fact that your ancestors did well, but to-day we are gathered to make a declaration of a grander independence that shall deliver men from the worst forms of bondage with which the souls of mankind have ever been shackled."

Following Lady Somerset, Mrs. Catherine L. Stevenson, corresponding secretary of the Massachusetts W. C. T. U., read a poem prepared and especially appropriate for the occasion, after which the routine business was taken up. The audience, which nearly filled the hall, was composed almost entirely of woman.

The constitution which was adopted outlined in its preamble not only opposition to the liquor traffic, but took a radical stand for the outlawing of the trade in tobacco and opium; declared for the suppression by law of gambling and Sunday desecration; the enfranchisement of women in all nations and the establishment of courts of international arbitration which shall banish war from the world. A plan of world's work, including provision for half a dozen Christian temperance missionaries in foreign lands, was approved, and provision made for the collection of a half cent per annum tax on the members of the union throughout the world for the maintenance of the work.

Mrs. Tel Sono; a native Japanese and President of the Japan W. C. T. U., made a few remarks. She is a fine representative of her race, and her quaintly but well-worded sentences in broken English, as she told briefly of the work in Japan, were listened to with wrapt attention.

The morning session closed with a few remarks by Julia Ward Howe, who referred to the fact that the last time she spoke in Faneuil Hall it was on the occasion of the services in commemoration of the life of Wendell Phillips. Mrs. Howe added inspiration to the moment by repeating the the lines of that grand old hymn of which she is the author, "The Battle Hymn of the Republic," the last verse of which was sung by the audience.

Creamery Cheese.

The Genoa *Conrier* says: Carson Valley creamery cheese is being extensively consumed throughout this section, and the people speak in high terms of this home product. The cheese is of fine quality and finds ready sale at home and abroad. Kaupisch Brothers have just finished laying pipes and the creamery is now heated by steam. This is of especial benefit in the curing department, as the room will be kept at a certain temperature, which will be a great benefit in curing the cheese.

Good Looks.

Good Looks are more than skin deep, depending upon a healthy condition of the vital organs. If the liver be inactive, you have a bilious look, if your stomach is disordered you have a dyspeptic look and if your kidneys be effected you have a pinched look. Secure good health and you will have good looks. Electric Bitters is the great alterative and Tonic acts directly on these vital organs. Cures Pimples, Blotches, Boils and gives a good complexion. Sold at Wm. Pinniger's drugstore, 50 c. per bottle.

Burglary.

Shortly after 1 o'clock this morning burglars entered through a rear window into S. J. Hodgkinson's drug store, yanked out the money drawer, took $1 50 in change and were evidently scared off before having time to tamper with the safe. They made their exit through the back door.

To Dispel Colds.

Headache and Fevers, to cleanse the system effectually, yet gently, when costive or bilious, or when the blood is impure or sluggish to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

PASS THEM AROUND.

Dead Beats "Booming" a Town by Beating Advertisers.

The GAZETTE is in receipt of the following circular letter issued by the Pueblo (Col.), *Chieftan*: The business public and citizens generally of Salt Lake City and Ogden, Utah, are hereby cautioned to be on the lookout for John Dunn and W. L. Myers, doing business under the name of Dunn & Myers, and their associates, whom it is rumored have gone to Salt Lake City and Ogden to work up a scheme to rob the business men of those places. Their scheme is to get up a souvenir edition of some paper or papers, or an illustrated book showing prominent people, business blocks, etc., of the city, ostensibly for the purpose of advertising the city and surrounding country.

They have just finished a souvenir of Pueblo, Colorado, where they obtained a large amount of money under false representations, and the patrons of the souvenir are cursing loud and long at their treatment. The agreement at first was to issue 1,000 books. They actually issued 500 copies, as the Cactus Printing Company will testify. In soliciting advertisements they gave many of the patrons to understand 5,000 copies would be issued, and promised from one to 75 copies to every patron. Only several of the patrons got what was promised them. Nearly all those who were promised 10, 20, 30, 40 and more books only received one or at most three. The promise of books was the bait to get the advertisements, promises made never to be fulfilled. They agreed with patrons to mail and express the books east if they (the patrons) would furnish or send in a list of names. These lists were carried in their pockets and only a few books were sent. Lists have been sent in since they skipped elsewhere to "pastures green," and not a single book has been sent out.

Their employers—solicitors, have skipped Pueblo, owing large sums for board, etc., under the pretense they could not get money from their employers. These same solicitors, it is rumored, have gone with Dunn & Myers to Salt Lake City and Ogden to assist in working the scheme again to fleece the public in those cities.

Be on your guard and have nothing to do with them.

The GAZETTE and its advertisers got badly bilked by a fellow about three years ago who was traveling on the same kind of a scheme.

THE LITTLE ROAD NORTH.

It Is Proving Itself of Great Benefit to the Farmers at the North.

The Lassen *Advocate*, in commenting on the benefit of the N., C. & O. to Lassen county, says:

We have no means of approximating the amount of freight transported, but we do know that during the last month one hundred carloads of wheat have been shipped from Amedee, and fifteen of these during the last week. Cattle shipments may be said not to have really commenced, and yet fifty-seven carloads have been sent out, as follows: D. C. Wheeler, 24 cars; Mr. Willey of San Francisco, 18 cars; George Humphrey, 9 cars; Ward Bros., 3 cars; M. O. Folsom, 3 cars. Of a certainty the narrow gauge is a big convenience, and if it could be induced to approach nearer the head of the valley, we should be pleased to chronicle its increased prosperity.

A Card.

EDITOR GAZETTE: Can you inform me through your valuable columns why at a public dance given by one of your most worthy societies of Reno the announcement of supper was publicly made in the ball-room that it would be served at the Palace Restaurant, not that I hold any malace toward the same, but quite on the contrary, wish it the best of prosperity; but I don't think it would have done any harm to have shown the same courtesy to the Arcade. Yours truly,
H. J. GREENBOWER.

Are Your Children Subject to Croup.

As a preventive and cure for croup, Chamberlain's Cough Remedy has no rival. It is, in fact, the only remedy that can always be depended upon and that is pleasant and safe to take. There is not the least danger in giving it to children, as it contains no injurious substance. For sale at 50 cents per bottle by J. B. McCullough, Druggist.

Miss Emma Gibbs' Xmas Opening Well Attended.

The display of fancy work made by Miss Emma Gibbs at the opening of her bazaar, "The Empress," was the handsomest selection ever opened in any town in Nevada. Every gentleman present was presented with a handsome coat flower and a pretty card announcing the opening of "The Empress." The pretty little store was crowded with ladies and gentlamen anxious to see the "pretty things" until a late hour. During their visit they were entertained by sweet music from a piano in the rear. Miss Gibbs is doing a snug little business, and she deserves to, for she is progressive and knows what the community demands.

For more than fifty years Cream of Tartar and Bicarbonate of Soda have been used for leavening purposes with sufficient flour added to preserve the strength of the powder unimpaired, and this with the addition of whites of eggs comprises this pure and wholesome leavening agent, that has been the standard for 40 years. In its use pure, wholesome and delicious food is always assured.

WATERMELON REVIVALS

An Interesting Religious Event in the South.

Singular Effects of the Fruit Season on Colored Help—White Folks Left to Their Own Resources.

This town is in the midst of one of the most successful watermelon revivals ever known in the south, says a Green Cove Springs (Fla.) correspondent of the New York Sun in a recent letter. The unusual fervor of excitement is said to be the result of the exceptionally fine melon crop, which in quality and quantity surpasses anything seen here in recent years. The revival began three weeks ago, as soon as the quality of the luscious yield had been proved by eating, and it is now at its height. As a consequence household operations are at a complete standstill and business of every kind is seriously interfered with.

The watermelon revival is a citro-religious event of annual recurrence in the melon-growing regions of the far south. It lays hold of the colored people only and gets its strongest grip on the sisters, but in a temporal way it affects the white residents hardly less powerfully. Throughout the melon season the colored sisters and a majority of the brethren entirely give themselves up to the exquisite pleasure of the melon and the not less religious pain of religious conviction that precedes the ecstacy of conversion, which in turn leads quickly to exaltation and a comatose condition. This latter condition is, next to Heaven, the end sought for; but because of the duration of these trances or subjugation to "the power," as it is called here, many of the sisters are in the present instance failing to assimilate all of their share of this season's melon crop. Thus Mrs. Kirkpatrick's cook lay in a trance for several days, and neither cooked nor ate, and this was when the melons were at their very best. Mrs. Buddington's colored maid was brought home in a dray at two o'clock in the morning and deposited on the kitchen floor, where she lay rigid and with "eyes set," as this manifestation is termed, until at the end of three days Mrs. Buddington had her carted back to the church in which she "got the power." Mr. Butler's cook got religion and rigidity early in the revival, and the task of finding a substitute being manifestly hopeless the family at once made arrangements to take their meals with a family in the same street who are not dependent on colored servants.

The industry that is doing nearly all the flourishing in the present crisis is that of the few worldly minded negroes who own a mule and cart. Business is brisk for these just now from the hour when the full moon shows above the further cypress-bordered shore of the St. Johns until the yellow disk fuses in the yellow sky of a midsummer morning. All of the colored churches are open twenty-four hours a day—in the vtime for such as attain satiety of ons early and are prepared for the religious influences long before nightfall; throughout the night for all who come. Many who come to scoff remain to be carted away, and those who have religion get it again and likewise have need of the mule cart. So this teaming of precious and rigid human freight begins early in the evening, and goes on until the bull-bats cease their pursuit of nocturnal bugs.

The white residents are so seriously affected by the melon revival, in consequence of the impossibility of getting any service done by the colored sisters, that some of them do not hesitate to speak impatiently of the whole business and declare that those who get the most religion also collar the most melons from the white man's patch; and now and then a sister who has seen many melon revivals, and is thus prepared to take a conservative view of the situation, replies: "Well, I 'spects that's so." All of the white residents are looking forward somewhat impatiently to the closing of the melon season and the synchronous competition of the religious work; not because they mind the loss of a few melons, but because they greatly need the services of those who at all times, barring this period of annual occurrence, are faithful and vmued servants.

PRESIDENTS' SONS.

The Hayes Boys—The Swaynes—Gen. Hayes' Wealth.

Writing on the topic of presidents' sons, I am reminded that ex-president Hayes has two young men who bear his name, says Carson Lake in the New York Press, but who were seldom heard of while he was in the white house. Indeed, the gentle qualities that distinguished their father and mother seem to have kept them in such seclusion that very few people to-day in the entire United States would be unable to say positively whether or not President Hayes has any sons. Webb Hayes is a prosperous manufacturer at Cleveland, O., where he pursued the even tenor of his way during his father's administration, and has built up a reputation for business ability and integrity which is all his own. Birchard Hayes is a member of the law firm of Swayne, Hayes & Swayne, at Toledo. The Swaynes are the sons of the famous justice of that name who was once on the bench of the United States supreme court and brothers of Gen. Wager Swayne, of this city, the associate of Judge Sidney Dillon, the law firm of Dillon & Swayne being the attorneys for Jay Gould and the great corporations in which that famous financier is the chief owner. I am told that the legal abilities of Birchard Hayes are of high order.

By the way, ex-President Hayes may safely be ranked among the millionaires of this country, and his wealth has come by happy combination of legacies and good business management. His grandfather, Rutherford Birchard, left him several hundred acres of land in Fremont and near Toledo. The growth of the latter city during the last twenty years brought Mr. Hayes' property into fair reach of its business center by means of street-car lines. Instead of placing it on the market he has held it until he could plat it himself, build houses on it and sell houses and lots, so as to make all the possible profit. I was talking the other day with a gentleman from Toledo, who told me that the ex-president had realized about three hundred thousand dollars within ten years from his sales of houses and lots on his property, and who estimated the value of the remaining property in Mr. Hayes' hands at not less than five hundred thousand dollars.

Fierce Canines Terrorized by a Made-Up Spook.

"Perhaps you are not aware," said a young lawyer to a scribe of the Charleston (S. C.) Democrat, "that dogs and horses are as much afraid of ghosts and other uncanny and mysterious things as are the most timid of the human race. I proved it one time on two dogs, at any rate. Not long after the war the negroes were so bad about our place in Kentucky that it was with difficulty that we could keep our belongings on our place. Every other method having failed I finally hit upon the plan of frightening them by appearing before them dressed as a ghost is said to habilitate itself. Of course the negroes were successfully frightened away from us, but upon one occasion I also frightened our watchdogs as badly as any negro ever was frightened by ghostly apparition. The dogs were fierce fellows and would allow no stranger or strange thing on the place; but one moonlight night they came upon me in spectral attire. The dog that first caught a glimpse of me just humped up his back until all four of his feet covered not more than six square inches of Kentucky soil. His eyes stood out and his hair stood up, and he began moving backward, never for an instant taking his eyes off my figure. His companion came up, went through the same movement, and both began backing cautiously from me. And as long as I could see them they put distance between us in that way. A few moments later I heard them barking at home, half a mile distant. They had taken refuge under the house, and it was four days before we could coax them out again."

A rose-colored lake is one of the novel attractions in the Caspian sea. One lake is covered with salt crystals strong enough to allow man and beast to cross the lake on foot. Another is as round as any circle and of a lovely rose-color. Its banks of salt crystals form a setting, white as the driven snow, to the water, which not only shows all the colors from violet to rosy-red, but from which rises a perfume as of violets. Both the perfume and the coloring are the result of the presence of sea weeds, the violet Polycystis violacea and the pink Clathrocystis rosea persicina.

"German Syrup"

J. C. Davis, Rector of St. James' Episcopal Church, Eufaula, Ala.: "My son has been badly afflicted with a fearful and threatening cough for several months, and after trying several prescriptions from physicians which failed to relieve him, he has been perfectly restored by the use of two bottles of Boschee's German Syrup. I can recommend it without hesitation." Chronic severe, deep-seated coughs like this are as severe tests as a remedy can be subjected to. It is for these long-standing cases that Boschee's German Syrup is made a specialty. Many others afflicted as this lad was, will do well to make a note of this.

An Episcopal Rector.

J. F. Arnold, Montevideo, Minn., writes: I always use German Syrup for a Cold on the Lungs. I have never found an equal to it—far less a superior.
